- When sections of criteria do not apply, or are deemed by the customer as not applicable, the section is noted as such and the rest of that table may be removed for that section.
- When multiple standards are being recorded in this document, the duplicative sections are noted and responded to only one time. The duplicate entry will note the cross reference to the data.

Legal Disclaimer Kaffeinated Kodemonkey

This ARC is part of a Proof of Compliance (POC) Certification.

An Accessibility Audit was completed by Certified Accessibility Developer at Kaffeinated Kodemonkey on February 2023 under WCAG/508 2.1 Level AA. The Certified A11y Developer completed the ACR as part of a POC Certification.

The ACR demonstrates the level of compliance, the status of each criterion, date of Accessibility Audit, and works in conjunction with the Accessibility Statement to explain why a component may or/may not be compliant. While the Accessibility Statement explains in further detail how the client is currently handling the issue(s).

*A **POC Certification** provides the following:*

- ***Accessibility Compliance Report (ACR)** – Outlines WCAG/508 Status.*
- ***Accessibility Statement** – Outlines a11y process and explains any issues and resolutions to remain compliant.*
- ***A11y Monitoring** – Kaffeinated Kodemonkey monitors the site for a11y issues and notifies the QuickStart team. As issues are resolved all A11y Documents are updated in accordance to keep your site ADA Compliant.*

Keep in mind it is nearly impossible to reach 100% compliance when the environment is always changing; Adding automated testing does not replace manual testing, only a human can determine if a website is truly accessible. The combination of a Certified A11y Agency and an A11y Platform will set your team and project apart from others while helping you remain compliant.
